ORESTONE MINING CORP.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

For the nine months ended October 31, 2015

(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Orestone Mining Corp. (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on April 30, 2007 and its principal business activity is the acquisition and exploration of mineral properties. The address of the Company’s registered and head office is 19th floor, 885 West Georgia Street, Vancouver, BC, Canada V6C 3H4. The Company’s shares are listed on the TSX Venture Exchange and trade under the symbol “ORS”.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon its ability to raise adequate financing to develop its exploration and evaluation assets, and to commence profitable operations in the future. To date the Company has not generated any significant revenues and is considered to be in the exploration stage. These uncertainties may cast significant doubt about the Company’s ability to continue as a going concern.

Management’s plan includes continuing to pursue additional sources of financing through equity offerings, seeking joint venture partners to fund exploration, monitoring exploration activity and reducing overhead costs. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the consolidated financial statement of financial position. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES**Statement of compliance**

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance and compliance with International Accounting Standards (“IAS”) 34 “Interim Financial Reporting” (“IAS 34”) using accounting policies consistent with IFRS issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

Basis of preparation

These condensed consolidated interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company’s January 31, 2015 consolidated annual financial statements.

These condensed consolidated interim financial statements, including comparatives, have been prepared on the basis of IFRS that are published at the time of preparation.

Significant estimates and assumptions

The preparation of these financial statements in conformity with IAS 34 requires management to make estimates, and assumptions that affect the reported amounts and other disclosures in these financial statements. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

ORESTONE MINING CORP.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

For the nine months ended October 31, 2015

(Expressed in Canadian dollars)

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (cont'd)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Critical accounting estimates are estimates and assumptions made by management that may result in material adjustments to the carrying amount of assets and liabilities within the next financial year. Critical estimates used in the preparation of these financial statements include, among others, the recoverability of receivables and mineral tax credit recoverable, recoverability time of tax receivables, impairment of assets, measurement of share-based payments and valuation of reclamation obligations.

Significant judgments

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in applying accounting policies to the Company's financial statements include:

- the assessment of the Company's ability to continue as a going concern and whether there are events or conditions that may give rise to significant uncertainty; and
- the classification / allocation of expenditures as exploration and evaluation expenditures or operating expenses.

These unaudited interim financial statements do not include all note disclosures required by IFRS for annual financial statements, and therefore should be read in conjunction with the annual financial statements for the year ended January 31, 2015. In the opinion of management, all adjustments considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Operating results for the nine month period ended October 31, 2015 are not necessarily indicative of the results that may be expected for the year ending January 31, 2016.

(“Kootenay”) to earn a 60 percent interest in the 700-hectare Estrella de Oro gold exploration property located in Sonora State, Mexico, approximately 200 kilometers southeast of the city of Hermosillo.

The option payments consist of staged cash payments totaling USD\$150,000, expenditures of USD\$2,000,000 and the issuance of 200,000 common shares of the Company upon regulatory approval (issued).

On October 2014, the Company completed testing targets developed through previous soil, geochemistry, geological mapping and surface sample work, and determined that the property lacked the potential. 	\$							
September 8, 2016	0.42	312,500	-	-	312,500	-	-	312,500

June 28, 2018	0.10	625,000	-	-	625,000	-	-	625,000
October 7, 2018	0.10	150,000	-	-	150,000	-	-	150,000
		2,992,500	-	-	2,992,500	-	-	2,992,500
Weighted average exercise price (\$)		0.17	-	-	0.17	-	-	0.17
Options vested and exercisable		2,992,500	-	-	2,992,500	-	-	2,992,500
Weighted average exercise price (\$)		0.17	-	-	0.17	-	-	0.17

At October 31, 2015 the weighted average remaining life of the outstanding and exercisable options is 2.04 years (January 31, 2015 – 2.79 years).

The assumptions used in the Black Scholes Option Pricing Model to estimate the fair value of options were:

	July 31, 2015	January 31, 2015	January 31, 2014
Risk-free interest rate	N/A	N/A	1.79% - 1.88%
Annualized volatility	N/A	N/A	164 - 173%
Expected dividend yield	N/A	N/A	Nil
Expected option life	N/A	N/A	5 years

Based on these variables, share based payment expense for the options vested during the nine months ended October 31, 2015 was \$Nil (2014 - \$9,118).

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable measure of the fair value of the Company's share purchase options.

f) Reserves (cont'd)

When stock options are exercised, the corresponding amount will be transferred to share capital. Amounts recorded for forfeited or expired unexercised options remain in the reserves account. Amounts recorded for exercised, cancelled or expired warrants remain in the reserves account.
