ORESTONE MINING CORP.

Notes to the Condensed Consolidated Interim Financial Statements

For the three months ended April 30, 2019

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Orestone Mining Corp. (the "Company" or "Orestone") was incorporated under the Business Corporations Act (British Columbia) on April 30, 2007 and its principal business activity is the acquisition and exploration of mineral properties. The address of the Company's registered and head office is 19th Floor, 885 West Georgia Street, Vancouver, BC V6C 3H4. The Company's shares are listed on the TSX Venture Exchange and trade under the symbol "ORS".

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon its ability to raise adequate financing to develop its exploration and evaluation assets, and to commence profitable operations in the future. To date, the Company has not generated any significant revenues and is considered to be in the exploration stage. These uncertainties may cast significant doubt about the Company's ability to continue as a going concern.

Management's plan includes continuing to pursue additional sources of financing through equity offerings, seeking joint venture partners to fund exploration, monitoring exploration activity and reducing overhead costs. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded on the consolidated financial statements of financial position. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that may be necessary should the Company be unable to continue in existence.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance and compliance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

(b) Basis of preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for marketable securities classified and measured at fair value through profit or loss. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The preparation of these condensed consolidated interim financial statements in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements.

These condensed consolidated interim financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published at the time of preparation.

3. SIGNIFICANT ACCOUNTING POLICIES

These unaudited condensed consolidated interim financial statements have been prepared in accordance with IFRS as issued by the IASB on a basis consistent with those followed in the Company's most recent annual financial statements for the year ended January 31, 2019.

These unaudited condensed consolidated interim financial statements do not include all note disclosures required by IFRS for annual financial statements, and therefore should be read in conjunction with the annual financial statements for the year ended January 31, 2019. In the opinion of management, all adjustments considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Operating results for the three-month period ended April 30, 2019 are not necessarily indicative of the results that may be expected for the current fiscal year ending January 31, 2020.

5. EXPLORATION AND EVALUATION ASSETS

Captain Property

The Company owns a 100% interest in certain mineral claims comprising the Captain Property located near Fort St. James, British Columbia.

As at April 30, 2019, the Company issued a \$29,000 (January 31, 2019 - \$29,000) reclamation bond to the Ministry of Energy, Mines and Petroleum Resources of British Columbia to guarantee reclamation of the environment on the Captain Property.

Resguardo Property

On August 16, 2018, the Company signed a unilateral purchase option agreement (the "Agreement") for a 100% interest in certain mining concessions the Resguardo copper project in northern Chile with the following payments totalling US\$5 million to Sociedad Contractual Minera Resguardo ("CMR") and drilling requirements:

- (i) US\$70,000 initial payment (paid);
- (ii) US\$150,000 on or before the first anniversary of the Agreement;
- (iii) US\$220,000 on or before the second anniversary of the Agreement;
- (iv) US\$460,000 on or before the third anniversary of the Agreement;
- (v) US\$1,100,000 on or before the fourth anniversary of the Agreement;
- (vi) US\$3,000,000 on or before the fifth anniversary of the Agreement;
- (vii) Completing 2,000 metres of drilling at any time during the option period.

5. EXPLORATION AND EVALUATION ASSETS, (Continued)**Resguardo Property,** (Continued)

Pursuant to the Agreement, CMR irrevocably offers to sell, assign and transfer the mining concessions to the Company together with specified rights including the including the inherent water rights, or those that may correspond to the mining concessions, within five kilometers. The Company can exercise its option to purchase all or some of the mining concessions by either making the above-noted installment payments or by paying the balance of any then-outstanding installment payments and completing the drilling requirements. If the Company decides not to exercise the option to purchase, any outstanding installment payments will not accrue and those payments made are non-refundable.

The Agreement was accepted for filing by the TSX Venture Exchange on September 20, 2018.

Upon completion of the purchase of the Resguardo copper project, a 1.5% net smelter royalty (the "NSR") will be reserved in favor of CMR. Orestone shall have the right at any time up to the seventh anniversary of the Agreement to purchase the NSR for US\$6.0 million. Orestone will also have the right to mine ores from the property at any time during the option period and would pay a 7% royalty on production for this right until completion of the purchase.

6. SHARE CAPITAL

a. Authorized

There are an unlimited number of common shares without par value.

b. Share issuance

During the three months ended April 30, 2019, the Company issued an aggregate of 508,334 common shares for gross proceeds of \$50,833 pursuant to the exercise of warrants.

On April 29, 2019, the Company completed a non-brokered private placement issuing 10,450,091 units ("Units") at a price of \$0.11 per Unit for aggregate gross proceeds of up to \$1,149,510 (the "Offering"). Each Unit consists of one common share of the Company and one common share purchase warrant. Each warrant will be exercisable for one common share of the Company at a price of \$0.15 for two years from the date of issuance. The warrants were ascribed a value of \$495,347 under the Black-Scholes valuation model with the residual being allocated to share capital. The Company paid a cash fee of \$25,846 of the proceeds of the Offering to certain arm's length finders.

On June 15, 2018, the Company completed a non-brokered private placement issuing 1,000,000 units at a price of \$0.10 per unit for gross proceeds of \$100,000. Each unit consists of one common share and one-half of common share purchase warrant. Each whole warrant entitles the holder to purchase one common share of the Company at a price of \$0.15 until June 14, 2019. The warrants were ascribed a value of \$18,831 under Black-Scholes Valuation model with the residual being allocated to share capital.

c. Share purchase option compensation plan

The Company has adopted an incentive share option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the TSX Venture Exchange requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the common shares to be outstanding at closing. Such options will be exercisable for a period of up to 5 years from the date of grant. In connection with the foregoing, the number of common shares reserved for issuance to any individual director or officer will not exceed 5% of the issued and outstanding common shares and the number of common shares reserved for issuance to all technical consultants will not exceed 2% of the issued and outstanding common shares.

The continuity of options is as follows:

6. SHARE CAPITAL, (Continued)

c. Share purchase option compensation plan, (Continued)

At April 30, 2019, the weighted average remaining life of the outstanding and exercisable options is 3.96 years (January 31, 2019 – 4.20 years).

The assumptions used in the Black Scholes Option Pricing Model to estimate the fair value of options were:

	2019	2018
Risk-free interest rate	Nil	2.12%
Expected stock price volatility	Nil	181.53%
Expected option life in years	Nil	5 years
Expected dividend yield	Nil	Nil
Forfeiture rate	Nil	Nil

Option pricing models require the input of highly subject assumptions including the expected price volatility. Changes in the subjective assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable measure of the fair value of the Company's share purchase options.

d. Warrants

Expiry date	Exercise price (\$)	January 31, 2018	Issued	Expired	January 31, 2019	Issued	Exercised	Expired	April 30, 2019

^(a) 500,000 warrants subsequently expired

^(b) 300,000 warrants were subsequently exercised

At April 30, 2019, the weighted average remaining life of the outstanding warrants is 1.57 years (January 31, 2019 – 0.69 year).

The assumptions used in the Black Scholes Option Pricing Model to estimate the fair value of warrants were:

	2019	2018
Risk-free interest rate	1.68%	Nil
Expected stock price volatility	155.71%	Nil
Expected option life in years	2 years	Nil

e. Reserves

The reserves account record items recognized as share-based payments expense and other share-based payments. When stock options are exercised, the corresponding amount will be transferred to share capital. Amounts recorded for forfeited or expired unexercised options remain in the reserves account. Amounts recorded for exercised, cancelled or expired warrants remain in the reserves account

7. LOSS PER SHARE

Basic and diluted loss per share

The calculation of basic and diluted loss per share for the three months ended April 30, 2019 was based on the loss attributable to common shareholders of \$94,419 (April 30, 2018 – \$79,716) and a weighted average number of common shares outstanding of 12,829,817 (April 30, 2018 – 11,546,108).

Diluted loss per share did not include the effect of 1,135,000 stock options (2018 – 1,020,000 stock options) and 14,433,424 warrants (2018 – 3,991,667) since they were anti-dilutive.

8. RELATED PARTY TRANSACTIONS

The aggregate value of transactions and outstanding balances relating to key management personnel and entities over which they have control or significant influence were as follows:

9. FINANCIAL INSTRUMENTS

The fair value of the Company's cash, marketable securities, receivable and trade and other payables approximate their carrying values.

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.

Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.

Level 3 – Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

Cash and marketable securities are measured using level 1 inputs. There were no transfers between levels 1, 2 and 3.

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, interest risk and market risk.

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to fulfil an obligation causing the other party to incur a financial loss. The Company is exposed to credit risks arising from its cash holdings, reclamation bonds and receivables (excluding GST). The Company manages credit risk by placing cash with major Canadian financial institutions. Management believes that credit risk related to these amounts is low.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient funds to meet its financial obligations when they are due. To manage liquidity risk, the Company reviews additional sources of capital to continue its operations and discharge its commitments as they become due.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash and cash equivalents, primarily through private placements. The Company access to financing is always uncertain. There can be no assurance of continued access to significant equity funding. Liquidity risk is assessed as high.

(c) Interest rate risk

Interest rate risk is the risk that an investment's value will change due to a change in the level of interest rates. The Company's exposure to interest rate risk is minimal.

(d) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: currency risk and price risk. The Company is not subject to currency risk as the functional currency is the Canadian dollar. The Company does not use any form of derivative or hedging instruments to reduce its foreign currency risk. The Company is not affected by price risk.

9. FINANCIAL INSTRUMENTS, (Continued)

(e) Management of industry risk

The Company is engaged primarily in the mineral exploration field and manages related industry risk issues directly. The Company is potentially at risk for environmental reclamation and fluctuations in commodity based market prices associated with resource property interests. Management is of the opinion that the Company addresses environmental risk and compliance in accordance with industry standards and specific project environmental requirements.

10. CAPITAL MANAGEMENT

The Company considers its capital structure to be shareholders' equity represented by net assets over liabilities. The Company manages its capital structure based on the funds available to the Company, in order to support acquisition, maintenance, exploration, and development of exploration and evaluation assets.

The Board of Directors has not established any quantitative return on capital criteria for management, instead relying on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has interests are in the exploration stage so the Company is dependent on external financing to fund its activities. In order to carry out activities and administration, the Company will spend its existing working capital and raise additional amounts as needed.

The Company is not subject to externally imposed capital restrictions.
